

GLP Impression S350 Wash

GLP presents the Impression S350 Wash. An advanced LED Wash Featuring a 350W powered white LED Engine bursting with features within an elegantly compact German designed body. Its high quality optical system combines a high output light beam with advanced colour rendering of 90+ at its native 6000K Colour Temperature. The S350 Wash uses a Fresnel based system with added 4 blade framing technology. The impression S350 Wash from GLP brings a new level of control and functionality to the mid-range LED wash light

Lamp type: LED 350W White LED
Dispersion: 8° - 50° with homogeny flat field.
Focus: Motorised 2m - Infinite
Colour Temperature: 6000K
CRI: 90+ Colour Rendering Index
DMX input/Output: DMX 5/3-Pin with RDM
DMX mode: 27-channel mode
X-axis: 640 ° (8bit / 16bit precision movement)
Y-axis: 262 ° (8bit / 16bit precision movement)

Colour Mixing: CMY
CTC: 2500K - 8000K Variable.
Colour Wheel: 10 Colours
Effects: 14 Blade High Speed Iris
Advanced 4 Blade Framing System: +/- 45°
Electronic Strobe 1~25Hz
Dimming Curves: 4
Operating voltage: 110 V AC - 240V AC / 50 60h
Power consumption: 500w
Power connector: True1 In/Out
Housing material: Aluminium + Flame Retardant Plastic Housing

Dimensions:
Length: 472mm
Height: 642mm
Width: 471mm
Weight: 25.4kg
