TourPro ZB7 Wash

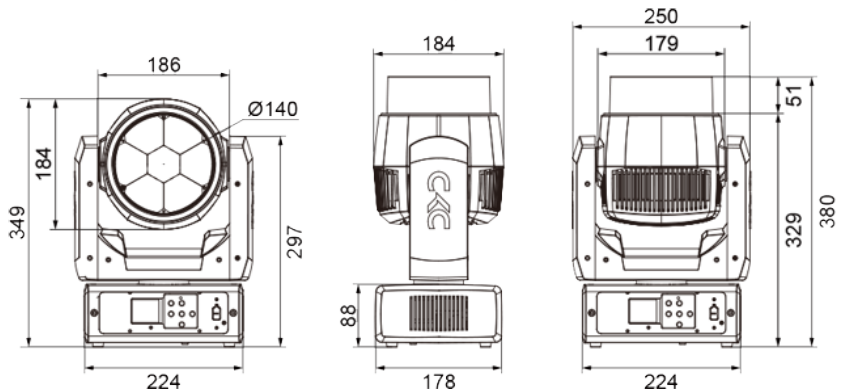

TourPro Lighting presents the ZB7 BeamWash. A versatile and compact moving head that projects a punchy beam and wash output, with added pixel control and fast speed. Weighing 6.5kg, the unit features dynamic optical system with seven, 40W RGBW LEDs and an expansive zoom range of 3.8° to 54° that allows for it to project tight, solid beam effects at its most narrow and transforms the light source into a nice even wash with excellent colour blending as it expands. The unit's small size also allows for a super-fast and smooth pan and tilt movement.

Colour spectrum: RGBW
LED type: 7 x 40w Osram LED
Dispersion: 3.8° - 54° Motorised Zoom
Colour Temperature: 2000K - 10000K
Colour Rendering Index: 88 CRI
Segments: Individual Pixel Control
Built in Virtual Colour Wheel:
Pan and Tilt: 540°/270°
DMX input/output: 5 Pin XLR, RDM
DMX Channels: 12/19/45 CH
Quick electronic strobe 1 ~ 25 Hz

Display: LCD Display
Operating Voltage: AC 100V - 240V 50/60 Hz
Power Consumption: 320W
Power Connector: PowerCon In/out
Housing Material: High-impact flame-retardant polymer

Width: 250mm
Height: 329mm
Depth: 184mm
Weight: 6.5kg
IP: 30
